As it grows

New Gypsophila, Bristol Fairy

DELICATE and charming in the mist-like profusion of its snow-white flowers, it is not only effective as a garden subject, but its cut sprays are also particularly useful for blending with other garden flowers. Commencing to flower fully ten days before the older double kind—late June here—the small side sprays combine daintily with sweet peas, then at their best, and the larger sprays add charm to any combination of cut-flowers.

Its value as a cut-flower is further enhanced because the sprays, if allowed to dry, retain their grace and clean color, and can be used effectively with everlasting flowers.

Briefly described, Bristol Fairy has all the virtues of the well-known Double Baby's Breath (*Gypsophila paniculata flore-pleno*) but it is superior in these respects: Its flowers are almost three times larger, are pure snow-white under all conditions, and being more widely spaced, are better poised and more graceful in every way. Its growth is more vigorous and sturdy, attaining a height of 4 feet, with a spread fully as broad.

Best of all, after the first flowers are cut, it flowers periodically until severe frost, so that cut sprays are always available and the plant is attractive throughout the season.

Planting Suggestions.—Bristol Fairy, owing to its robust character, may be planted singly in the hardy border, or interspersed in groups of three or more. As a foreground for shrub or evergreen groupings, it is splendidly effective and should be spaced not less than 2 feet apart. If planted in the service garden for cutting purposes, allow a space of 2½ feet in the row, and 4 feet between rows.

Bristol Fairy. Its History.—Desiring to develop a type which would be pure white and earlier in flowering, we made a practice of sowing seed from selected types of the Double form of Baby's Breath. Bristol Fairy appeared in one of these experimental plots, but in all characteristics it is so far removed from the type that we regard it more as a distinct break than as an improvement by selection. It does not produce seed and can be propagated only by grafting, or less readily by cuttings. For that reason it will never become common.

To thoroughly test it under varying conditions, we sent plants to growers in other sections of the country and invariably received enthusiastic reports of its behavior.

The new double Gypsophila shown by Mr. Wells, Jr., at last Tuesday's meeting of the Royal Horticultural Society, was given the Award of Merit. This certainly is fine thing, and those who have seen it share the opinion of the exhibitor that it has a big future in store. I don't think there are many who have such faith in their convictions as Mr. Wells evinced regarding his double Gyp, for within an hour of his knowing that he was to have this to put on the market, arrangements had been made and an order given to have a greenhouse built in order to facilitate the propagation of this in large quantities. Some hustle. From *The Nurseryman and Seedsman*, June 24, 1926.

Strong field-grown plants, \$1.50 each, \$15 per dozen. Extra-heavy plants, \$2 each, \$20 per dozen

Gypsophila, Bristol Fairy. Another strong point of this variety, which received an Award of Merit recently, is that the double flowers maintain their whiteness and size when cut and dried. Recently we saw the original sprays shown at Vincent Square last June, by Mr. Wells, and they were in splendid condition, although not placed in water. We also saw a splendid stock of grafted plants in 60's, and Mr. Wells is very pleased with them. The original plants of Bristol Fairy, although worked hard for cuttings, are still flowering freely and maintaining that extraordinary size of flower, which is the chief characteristic of this variety.—From *The Horticultural Trade Journal*, Aug. 18, 1926.

Choice Hardy Perennial Plants

PLEASE NOTE.—Plant orders will be forwarded by express, purchaser paying charges, unless we are otherwise instructed. Small orders may be forwarded by parcel post. If wanted this way, please add 10 per cent to value of plants.

Aconitum (Monkshood)

Fisher. Forms a bushy clump 1½ feet in height. Large light blue flowers in September and October. Valuable for planting in semi-shaded spots. 35 cts. each, \$3.50 per doz.

Anchusa (Bugloss)

Italica, Dropmore. An effective garden plant. Pretty gentian-blue flowers in June on pyramidal branched spikes, 3 to 5 feet in height. 35 cts. each, \$3.50 per doz.

Anemone japonica Japanese Windflower

Valuable garden plants, blooming from late August until severe frost; also desirable for cutting purposes. Plants grow 2 to 3 feet in height. Do not attain their best until thoroughly established, and are at home in any good garden soil which is well drained.

Alba. Pure, snowy white, single flowers.

Hupehensis. Mauve-rose; very free-flowering. Early.

Lady Ardilaun. Pure white, single flowers. Very free.

Louise Uhink. (New.) Very large, pure white, double flowers of good substance. A real acquisition on account of its vigorous growth and early-flowering tendency. 50 cts. each, \$5 per doz.

Prince Henry. Rosy red. An improvement on rubra.

Queen Charlotte. Large, semi-double flowers, La France pink in color.

Whirlwind. Semi-double, pure white flowers.

Aquilegia (Columbine)

Long-spurred Hybrids. We offer an unusually choice strain of these lovely hybrids, ranging in color tones from creamy white and yellow to bronze-red and blue shades. No two plants resemble each other in color, and the combination of shades found in this selection defies description. In choosing stock plants we invariably regard a thrifty, robust growth of equal importance to color and well-developed spurs. Visitors at our nursery, when these are in bloom, are most favorably impressed with this superior strain.

Cærulea. Rocky Mountain Columbine. Blue and white long-spurred flowers. Strong plants, will bloom this season.

Hardy Asters

The following varieties are improved forms of the native wild Aster, common to our New England roadsides, and conspicuous during late summer and fall, and should not be confused with the better-known summer-flowering or China Aster.

Climax. Lavender-blue, with golden yellow center; branches gracefully recurving when in full bloom. One of the best. Height, 4 to 5 feet.

Plants offered on this page, 25 cts. each, \$2.50 per doz., \$15 per 100, unless otherwise noted

HARDY ASTERS, continued

Glen Eyrie. Mauve-pink. A very effective variety, attaining a height of 6 to 7 feet.

Mrs. F. W. Rayner. Large, rich rosy crimson flowers appearing in September and October. Height, 4 feet.

Peggy Ballard. Large, pyramidal sprays of double, rosy mauve flowers. Height, 3 feet. 35 cts. each, \$3.50 per doz.

Rachel Ballard. Rosy pink flowers in profusion. Height, 4 ft.

Thomas Ware. Rosy lilac. Very effective. Height, 3½ to 4 feet.

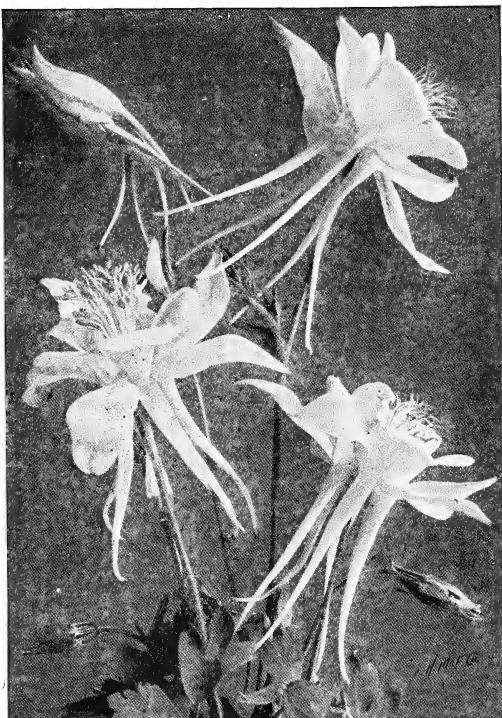

White Climax. A good white counterpart of Climax.

Dwarf Hardy Asters

Alpinus. Neat tufts of purplish blue flowers during May and June. Useful for rockeries. Height, 6 to 9 inches.

Lutetia. A rare and beautiful variety of hybrid origin, completely covered with pretty lilac-rose flowers, 2½ inches in diameter, from late August until October. Height, 2 feet. 35 cts. each, \$3.50 per doz.

Subcæruleus. Violet-blue, with distinct orange center. A very useful variety for cutting. Height, 1½ feet.

Long-Spurred Hybrid Columbines

Astilbe (*Spiraea*)

These are robust-growing plants of branching habit, producing graceful, feathered heads of flowers during late June and July. They do well in any good garden soil, and are very useful for cutting.

Juno. Deep violet-rose plumes; strong, erect growth. Height, 2½ feet.

Kriemhilde. Salmon-rose; very beautiful. Height, 2½ feet.

Rose Perle. Shell-pink; dense, pyramidal trusses. Height, 2½ feet.

Queen Alexandra. Light rose-pink; very free. Height, 2 feet.

50 cts. each, \$5 per doz.

Hardy Chrysanthemum

DECORATIVE TYPE

These are larger, more showy, and usually earlier in flowering than the Pompon or Button type. Very desirable for cutting. We recommend a selection from the following kinds for New England gardens.

Alice Howell. We consider this one of the very best garden Chrysanthemums. Flowers are single, produced in good sprays, and are of a wonderful rich shade of orange-yellow, an unusually effective garden color, and it can be depended upon to flower before severe frost sets in.

HARDY CHRYSANTHEMUMS, continued

Autumn Glow. Rosy crimson.

Ruth Cumming. Another garden variety of exceptional merit, rich reddish bronze in color. Growth is dwarf and compact. An unusually free-flowering variety, and altogether dependable for the garden. We consider this the best Chrysanthemum for cutting.

Aquitaine. Salmon-bronze.

Cranford's White. Large, pure white flowers.

Maduse. Terra-cotta-bronze; large.

Miss F. Collier. Pure white.

Normandie. Delicate pink.

Yellow Normandie. Bronzy yellow; extra good.

Lucifer. Rich ox-blood-red.

Framfield White. Pure white; semi-double; early.

BUTTON OR POMPON TYPE

Little Barbee. Small, button-like flowers of bright red.

Mrs. H. Garrison. Lavender, light center. Early.

Eden. Rosy pink; large.

Ethel. A splendid bright red Baby Pompon.

Excelsior. Bright yellow.

Golden Climax. Orange-yellow.

Harvest Moon. Yellow.

Metzi. Yellow with white center.

Maid of Kent. White.

Mariana. Large; white.

November Gold. Rich yellow; large flower.

Campanula

Carpatica. Bellflower. Bright blue, cup-shaped flowers. Dwarf habit.

Carpatica alba. Pretty white form of preceding.

Medium. Canterbury Bells. We can supply these ever-popular favorites in White, Pink, Lavender, Blue, and Mixed Colors.

Medium calycanthema. Cup-and-Saucer. White, Pink, Blue, and Mixed Colors.

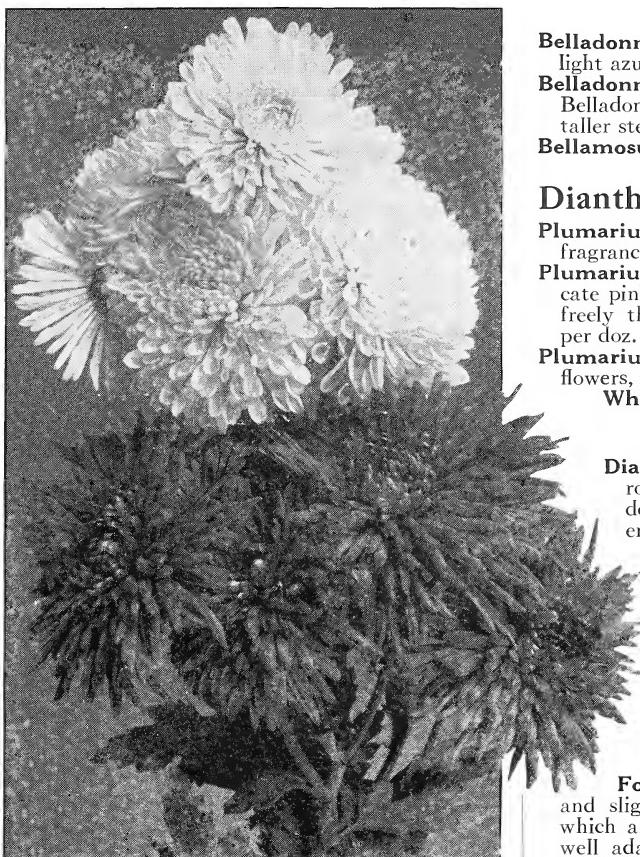

Persicifolia. Peach Bells. Large, cup-shaped flowers on wiry stems 2 feet high. Fine for cutting. Blue or White.

Delphinium Larkspur

The Delphinium is, we believe, the most satisfactory of all border plants and is deserving of special care. It does not do well under congested conditions. A rich soil is desirable, but the roots must not come in contact with manures. Bone-meal should be well mixed into the soil before planting and a light application made after each crop of flowers is cut. If these are cut close to the ground, new flowering growths will appear from the base of the plant, and, with proper care, will continue until frost.

Hardy Delphiniums

Upper, Mariana Chrysanthemum
Lower, Ruth Cumming. See page 4

BRISTOL HYBRID DELPHINIUMS

Grown from seed selected with the utmost care from vigorous hybrids, we believe this selection will contain kinds that are fully equal to many of the best named varieties, with the advantage of added vigor. It is a fact that the finer European named varieties, which must be propagated from division or by cuttings, are prone to deteriorate in the process, and are not fully at home under our more changeable climatic conditions. Our hybrid strain includes a range of lovely colors varying from azure-blue to deepest purple, mauve-pink to rosy lavender. Many are semi-double, with distinct centers. Strong and vigorous, and, when well established, stately spikes attaining a height of 7 feet are not unusual.

Strong, field-grown plants of the above Bristol Hybrids, 35 cts. each, \$3.50 per doz., \$25 per 100.

Mixed Hybrids. A good mixed strain, but not equal to Bristol Hybrids. 25 cts. each, \$2.50 per doz., \$15 per 100.

Hollyhock or Wrexham Type. A new race, with tapering, spire-like spikes of unusual length and beauty, and including lovely color tints and shades. This type will flower late, following the hybrids, and thus prolong the Delphinium season. Plants from 3-inch pots, 50 cts. each, \$5 per doz.

Belladonna. Light or turquoise-blue. Flower-spikes are of medium height, but are produced with great freedom from the end of June until hard frost. Valuable for garden effect or as a cut-flower.

DELPHINIUM, continued

Belladonna, Fanny Stormonth. Very large, light azure-blue flowers. 35c. each, \$3.50 per doz.

Belladonna, Cliveden Beauty. An improved Belladonna with larger individual flowers and taller stems. 35 cts. each, \$3.50 per doz.

Bellamosum. A dark blue form of Belladonna.

Dianthus. Hardy Garden Pinks

Plumarius. June Pink. Large flowers with spicy fragrance.

Plumarius, Annie Laurie. (New.) Single, delicate pink flowers of extraordinary size, produced freely throughout the season. 50 cts. each, \$5 per doz.

Plumarius, Rose of May. Pretty double pink flowers, clove-scented.

White Reserve. Pure white; double.

DWARF CUSHION PINK

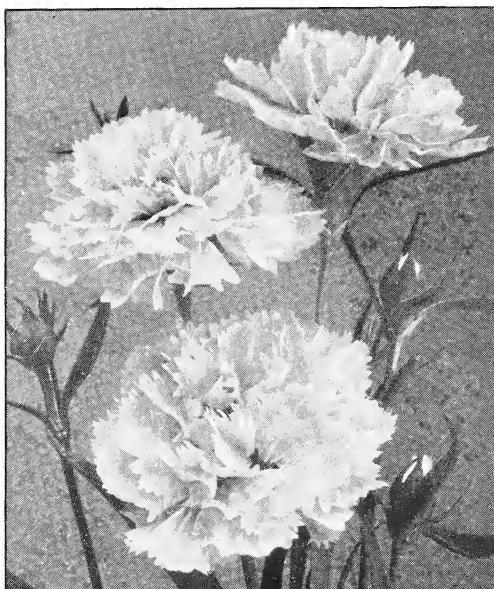

Dianthus cæsius, Hybrids. A gem for the rockery. The growth is compact, extremely dense, and of true cushion formation. Flowers light to bright pink, completely obscuring the plant in early May. Strong plants, 35 cts. each, \$3.50 per doz., \$25 per 100.

Dielytra · Dicentra

Spectabilis. Bleeding-Heart. This fine old favorite has been almost un procurable for several years. We have a good stock now of medium-sized plants. 50 cts. each, \$5 per doz.

Formosa. A variety with finely cut leaves and slightly smaller, pretty rose purple flowers which are borne on and off all summer. It is well adapted to the edge of shrubbery border, and thrives in the shade. 50 cts. each, \$5 per doz.

Price of Hardy Perennials, 25 cts. each, \$2.50 per doz., \$15 per 100, unless otherwise noted

Hardy Garden Pinks

Digitalis (Foxglove)

The Shirley. Those who admire the old-fashioned Foxglove will delight in this greatly improved strain of *Gloxiniæflora*. The flowers, unusually large in size, are daintily frilled, varying in color from white to deep rose-pink and are spotted crimson, maroon, and chocolate. It may be of interest to note that this fine strain was developed by the originator of the Shirley poppy. Robust constitution and is, for that reason, valuable for New England gardens. Strong plants, will flower this season, 30 cts. each, \$3 per doz., \$20 per 100.

Gloxiniæflora. White, Pink, Purple, and Spotted.

Isabellina. (New.) A desirable pale yellow form of *Gloxiniæflora*. 35 cts. each, \$3.50 per doz., \$25 per 100.

Monstrosa. Mammoth Foxglove. Mixed colors.

Echinacea

Purpurea (Rudbeckia). Purple Coneflower. A subject of real interest and one that should be better known. The daisy-like flowers are 4 inches across, with reddish purple petals surrounding a prominent cone-shaped center, brown in color. By careful selection over a period of years we have largely eliminated the magenta shades peculiar to the old type, and our strain blends well with other cut-flowers. Blooms from mid-July until October, when flowers are none too plentiful. Height 2½ to 4 feet. Large clumps, 50 cts. each, \$5 per doz.

Gaillardia

Grandiflora. Blanket Flower. A most satisfactory garden subject, flowering freely from July until frost, and invaluable for cutting. Showy flowers with dark brown centers and petals marked crimson, orange, and vermillion. 25 cts. each, \$2.50 per doz., \$15 per 100.

Golden Gleam. (New.) A splendid free-flowering variety, absolutely pure yellow. Valuable either in the garden or as a cut-flower. Strong plants, 50 cts. each, \$5 per doz.

Portola. (New.) A great improvement and distinct in habit from all other Gaillardias. The growth is erect and vigorous, showing no tendency to spread. Flower brilliant coppery scarlet, with petals margined golden yellow, overlapping and forming a most attractive flower of great substance. Needs an open, sunny location, like all Gaillardias. (See illustration on front cover.) Young plants, 50 cts. each, \$5 per doz.

Gypsophila

Paniculata fl.-pl. Double Baby's Breath. In every way superior to the well-known Baby's Breath. Fine for garden decoration but invaluable for cutting. The flowers are larger, pure white, and when cut may be dried and kept indefinitely. The dainty, mist-like sprays usually appear when sweet peas are at their best and are invaluable in combination with other garden flowers. This variety cannot be depended on to come true from seed, and for that reason the true type will always be scarce, as it is difficult to propagate. We offer strong, two-year-old plants, 50 cts. each, \$5 per doz.

Bristol Fairy. See page 2.

Paniculata. Single Baby's Breath. Like the above, with single flowers.

Heuchera • Coral Bells

Dainty plants of compact, bushy habit, 1½ to 2 feet in height when in flower. Graceful flower-spikes of minute, bell-shaped flowers on wiry stems during July and August. Excellent for cutting.

Gracillima rosea. Salmon to carmine-rose. Strong habit and very free.

Sanguinea maxima. Coral-red. Improved form. 35 cts. each, \$3.50 per doz.

Hibiscus (Mallow Marvels)

A great improvement on our native Mallows. Flowers average 10 to 12 inches across and are gorgeously colored. These Mallows are at home as a water-edge plant, but do equally well in the hardy garden or shrub border. The average growth is 5 to 6 feet. Strong, four-year roots, 50 cts. each, \$5 per doz.

Hollyhocks

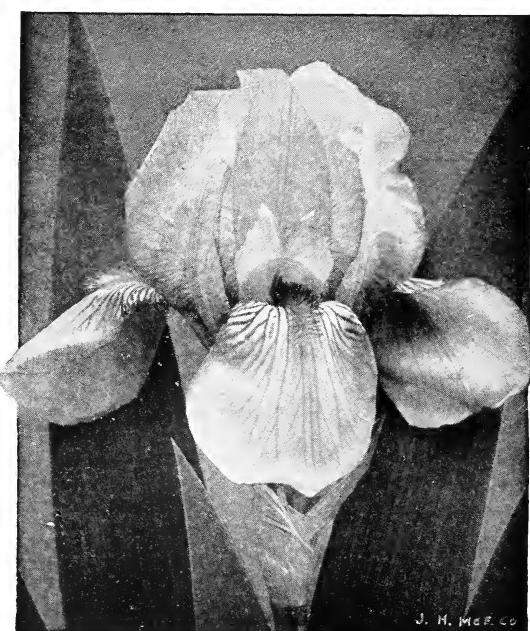

We can supply large, healthy, rust-free plants of these stately garden subjects in mixed colors and with single flowers. The double varieties come in White, Rose-Pink, Yellow, Crimson, and Maroon. 25 cts. each, \$2.50 per doz.

Exquisite. The flowers of this splendid new Hollyhock are very large, delicately curled and fringed, and entirely distinct from the familiar double Hollyhock. Flowers are peculiarly marked or blotched in colors varying from rose to dark purple. With white-margined petals, not unlike a pelargonium. 35 cts. each, \$3.50 per doz.

Iris Germanica

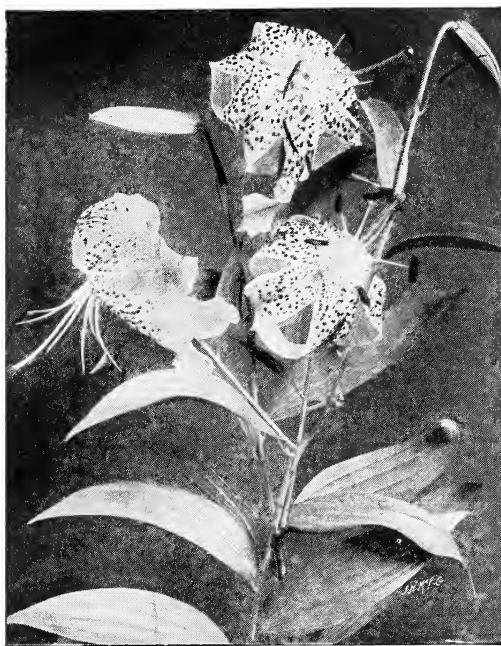

German or Liberty Iris

Alcazar. Very large flowers with light violet standards; falls deep purple, with bronze-veined throat. Fine vigorous growth. 50 cts. each, \$5 per doz.

German Iris

J. H. MacE. CO

Lilium speciosum

IRIS GERMANICA, continued

Amas. Rich violet-blue, very large flowers. 2 feet high.

Aurea. Chrome-yellow.

Black Knight. *Black Prince.* Standards purplish blue; falls deep blackish purple. One of the deepest in color. \$1 each, \$10 per doz.

Blue Jay. Clear blue, shaded dark blue. 35 cts. each, \$3.50 per doz.

Caprice. Rosy red, yellow beard. 35 cts. each, \$3.50 per doz.

Caterina. Standards clear blue; falls soft lilac. The large flowers are borne on stout, branching stems over 4 feet high. 50 cts. each, \$5 per doz.

Candelabre. Lovely lavender-blue blooms dotted with darker blue. The flowers are large and distinct, making this an excellent variety for any collection. 35 cts. each, \$3.50 per doz.

Empress of India. Very large flowers of a rich but delicate blue color. Stately flower-stems. \$1 each.

Her Majesty. Clear rose-pink, bright crimson falls; extra fine. 35 cts. each, \$3.50 per doz.

Ingeborg. Large, pearly white flowers; medium growth.

Iroquois. Smoky lavender and maroon. Fine erect habit. 35 cts. each, \$3.50 per doz.

King of Iris. Lemon-yellow; satiny brown falls. Extra. 50 cts. each, \$5 per doz.

Mme. Chereau. White, edged light blue.

Monsignor. Rich satiny violet standards; velvety purple falls. 35 cts. each, \$3.50 per doz.

Mrs. Darwin. White, reticulated violet.

Pallida Dalmatica. Lavender, shaded blue. Very robust and fragrant. 30 cts. each, \$3 per doz.

Pumila. Very pretty dwarf species, flowering in April. Purple.

Pumila Aurea. Desirable yellow form of above.

Purple King. Large, reddish purple flowers. Very effective. 35 cts. each, \$3.50 per doz.

Plants offered on this page, 25 cts. each, \$2.50 per doz., \$15 per 100, unless otherwise noted

IRIS GERMANICA, continued

Quaker Lady. Standards an odd shade of smoky lavender with shading of yellow; falls ageratum-blue and old-gold; beard and stigmas yellow. 50 cts. each, \$5 per doz.

Queen of May. Soft lilac-rose, almost pink. Tall grower. 25 cts. each, \$2.50 per doz.

Rose Unique. Bright violet-rose—the nearest approach to a true pink Iris. 50 cts. each, \$5 per doz.

Sherwin Wright. (New.) Golden yellow; very free and vigorous. Fine. 35 cts. each, \$3.50 per doz.

Tecumseh. Smoky violet, shaded yellow and buff. 35 cts. each, \$3.50 per doz.

Violacea grandiflora. Rich violet-purple. Fine. **White Knight.** Pure snowy white. The best in this color. 50 cts. each, \$5 per doz.

Any of the above Irises, 20 cts. each, \$2 per doz., \$12 per 100, unless otherwise noted

Iris Kaempferi (Japanese Iris)

Anna Christ. Delicate shade of azure-blue. 50 cts. each, \$5 per doz.

Purple and Gold. Rich violet-purple, gold center; enormous double flowers. 50 cts. each, \$5 per doz.

Yomo-no-Umi. Fine creamy white. Very free. 50 cts. each, \$5 per doz.

Garden Lilies · Lilium

Auratum. *Golden-banded Lily of Japan.* 50 cts. each, \$5 per doz., \$35 per 100.

Speciosum album. White. 50 cts. each, \$5 per doz., \$35 per 100.

Speciosum rubrum. White, spotted crimson. 50 cts. each, \$5 per doz., \$35 per 100.

Tigrinum splendens. *Improved Tiger Lily.* Showy orange-red with black spots. Easy to grow. 25 cts. each, \$2.50 per doz.

NEW HARDY LILY (*Lilium regale*)

Undoubtedly this new Chinese Lily will prove one of the most satisfactory of all garden Lilies. It blooms in July when flowers are not over-abundant, and, when established, attains a height of 5 feet, producing large, trumpet-shaped, fragrant flowers not unlike the Easter Lily, ivory-white in color, with pink and soft yellow shadings. Unlike the Japanese Lilies, it improves from year to year and actually increases its bulbs, so that every third or fourth year the bulbs may be taken up, reset, and the planting enlarged. Strong flowering bulbs. 75 cts. each, \$7.50 per doz.

Lupine · Lupinus

Polyphyllus. *Lupine.* Handsome blue spikes.

Polyphyllus albus. White.

Polyphyllus roseus. Pink.

35 cts. each, \$3.50 per doz., \$25 per 100

NEW LUPINES, REGAL HYBRIDS

This new strain of hybrid Lupines of English origin has attracted a great deal of attention from European garden lovers. Those who are familiar with the white, blue, and pink Lupines—a favorite in American gardens—will welcome the new colors introduced in this strain, comprising creamy whites, amber, coppery orange, salmon-rose, lavender-blue, and many bicoloored sorts. These do not come strictly true from seed and cannot be offered in separate colors, but all are entirely desirable. Strong plants, will flower this season, 50c. each, \$5 per doz.

Lupinus polyphyllus. See page 7

Oriental Poppy · Papaver orientalis

Poppies after flowering in June, die down until early fall, when the foliage reappears, and they require two seasons to get properly established.

Cerise Beauty. Lovely cerise-pink, blood-crimson center, dark blotch at base of petals. 35 cts. each, \$3.50 per doz.

Gerald Perry. Uniform shade of apricot-pink, conspicuously blotched crimson. 35c. ea., \$3.50 per doz.

Goliath. Large, deep vivid crimson flower. 35 cts. each, \$3.50 per doz.

Mrs. Perry. Soft salmon-rose. A most effective garden color. 35 cts. each, \$3.50 per doz.

Orange Beauty. Orange-scarlet, with a distinct blotch at the petal-base. Very large flower.

Perry's White. Pure satiny white, marked crimson-maroon at base of petals.

Royal Scarlet. Vivid red, dark center.

Choice Mixed. Gorgeous flowers in numerous shades including White, Salmon-Pink, Flaming-Scarlet, and Dark Crimson. 25 cts. each, \$2.50 per doz.

Iceland Poppies

"Coonara Pinks." A delightful new strain of Australian introduction, combining pink and salmon shades of wonderful delicacy. The flowers are borne profusely on long, slender stems throughout the season, and are very dainty when cut. They will keep well if cut in the bud and the ends of the stems seared or scalded for a moment. From pots, 35 cts. each, \$3.50 per doz.

Pæonia · Peony

In planting this fine old favorite, provide a good soil, deeply dug and enriched with well-decayed manure, to which a sprinkling of bone-meal should be added. The fertilizer should not come in direct contact with the roots, and the plants should be set just deep enough to cover the crowns. While the large two-year plants offered should bloom the first season, it requires from two to three years before the flowers will appear in their true form. We offer some very choice kinds in addition to the older varieties. All are good.

50 cts. each, \$5 per doz., unless otherwise noted

Albatre. Pure white petals, edged carmine. Extra fine. 75 cts. each, \$7.50 per doz.

Asa Gray. Flesh-color, sprinkled with carmine.

Couronne d'Or. White; golden stamens.

Duchesse de Nemours. Pure white; large and fragrant.

Edulis Superba. Deep rose-pink. Early.

Festiva Maxima. Waxy white, flecked carmine.

Felix Crousse. The best bright red. \$1 each, \$10 per doz.

Livingstone. Pale lilac-rose, tipped silver and flecked carmine. Very free and vigorous. \$1 each.

Marguerite Gerard. Pale hydrangea-pink, minutely marked dark crimson. Medium height; free flowering. Late. \$1 each.

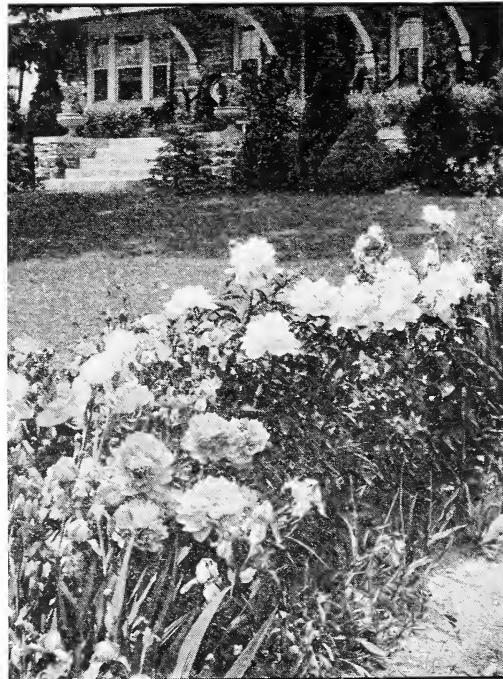

Meissonier. Brilliant purple-red, center deep crimson. 50 cts. each.

Mons. J. Elie. Lilac-rose, silvery reverse. Very large. \$1 each, \$10 per doz.

Officinalis Rubra. This is the old-fashioned early-flowering variety. Large, full, deep crimson flowers; very fragrant. Stock limited. \$1 each.

Prince Imperial. Amaranth-red. Very good.

Triomphe de l'Exposition de Lille. Pale pink, splashed rose. 75 cts. each, \$7.50 per doz.

Border of Peonies and Iris

Hardy Phlox

Given good soil and divided every two or three years, these splendid hardy plants will not deteriorate. Their gorgeous colors are invaluable to the garden from midsummer until late in the season. During dry periods water should be applied copiously. If mildew appears during changeable weather, coating the leaves with a white powdery substance, spray with liver of sulphur (sulphide of potassium), 1 ounce to 3 gallons of water, to which a little soap should be added. Plant 1½ to 2 feet apart.

New Varieties of Phlox

35 cts. each, \$3.50 per doz.

Debs. A splendid new Phlox in a much-wanted color—vivid cherry-crimson, without any tendency to shade or bleach out. Not a large flower, but by far the most effective red Phlox.

Evelyn. Rich salmon-rose in color; the individual flowers are very large and the trusses are immense. A strong-growing Phlox, from 2½ to 3 feet high.

Homeland. Brilliant oriental red with orange suffusion and crimson eye; very vivid.

Mia Ruy. Enormous trusses of purest white; dwarf, branched habit.

Mrs. Milly von Hoboken. Very large flowers of a soft pink shade, without eye, and unusual in that respect. Strong, erect spike. A good novelty.

Mrs. Scholten. A new Phlox of outstanding merit. The individual flower is unusually large and is carried on enormous, pyramidal spikes. The color is a vivid salmon, shading to red,

Smiles. (New.) Deep pink, faintly shaded mauve. Enormous flower trusses.

W. Kesselring. Vivid reddish violet, with large white eye.

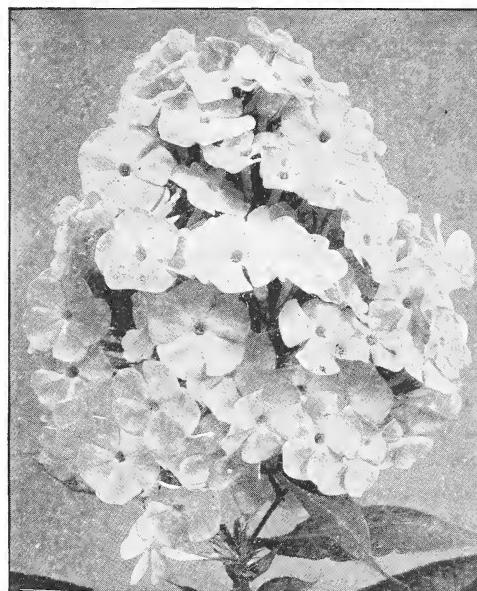

General List of Phlox

Alpha (Maculata Hybrid). Similar to Miss Lingard in habit. Rich soft pink in color and very free flowering. 2½ feet.

B. Comte. Brilliant French purple. The best Phlox in this color. 35 cts. each, \$3.50 per doz.

Bridesmaid. White, distinct crimson eye.

Coquelicot. Orange-red.

Hardy Phlox

Elizabeth Campbell. Light salmon-pink, dark red eye. Extremely choice. 35 cts. each, \$3.50 per doz.

Frau A. Buchner. Extra-good white.

Frau G. van Lassburg. Pure white. Vigorous.

Goliath. Carmine-crimson, red eye. Very strong.

Josephine Gerbeaux. White, red eye.

Jules Sandeau. Very large trusses of pure pink flowers; individual florets of unusual size. Growth medium, very free.

Louise Abbema. Dwarf; pure white.

Maid Marian. A lovely shade of soft lavender. Flowers large and freely produced.

Miss Lingard. Pure white flowers from May on. Glossy foliage.

Mme. P. Dutrie. Soft lilac-pink.

Ornament. A splendid bright pink, flowering over a long period. Better than Pantheon.

Rheinlander. Salmon-pink; very large trusses. 35 cts. each, \$3.50 per doz.

Riverton Jewel. Mauve-rose, carmine-red eye.

Rynstrom. Rose-pink.

Special French. Beautiful shade of clear pink; vigorous. 35 cts. each, \$3.50 per doz.

Thor. Salmon-pink.

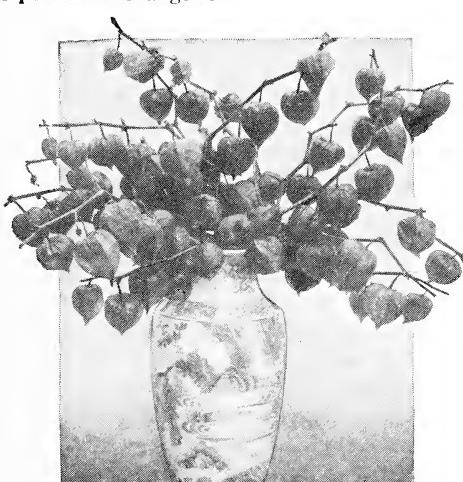

W. C. Egan. Delicate lilac, with solferino eye.

Phlox divaricata canadensis. Completely covered with fragrant lavender flowers during April and May. Height, 10 inches. Splendid for massing.

Phlox subulata. Moss Pink. Excellent for the rockery. Covered with flowers in early spring. White, Lavender, and Pink. 20 cts. each, \$2 per doz., \$15 per 100.

Physalis

Franchetii. Chinese Lantern Plant. Bright orange-scarlet lantern-like fruits. Very useful for winter decoration when cut and dried. Requires an open, well-drained location. 25 cts. each, \$2.50 per doz.

Physalis Franchetii

Primrose · Primula · Cowslip

Veris. These fine old favorites are most welcome during the early spring season. They like a rich soil; a position somewhat sheltered from strong winds, and partially shaded from the sun. A splendid strain of mixed colors. Heavy, 2-yr. clumps, 35 cts. each, \$3.50 per doz.

Primula veris

Pyrethrum

Hybridum. *Colored Daisy.* One of the fine old-fashioned garden flowers, doing well in any good garden soil fully exposed to the sun, flowering freely in June, and more or less during the autumn months. Colors include White, Pink, and Red, but can be supplied in mixed colors only. Height, 2 feet.

Uliginosum. *Giant Daisy.* Large, pure white flowers from July to September. Height, 3 to 4 feet.

Sweet William

We can supply this fine old-fashioned favorite in plants grown from the choicest European strains available, and almost true to color.

Diadem. Crimson, pure white eye.

Newport Pink. Effective shade of salmon or water-melon-pink.

Pure White. Very large flowers.

Scarlet Beauty. Rich deep scarlet.

Mixed. Including all colors.

Trollius Europaeus

Siberian Wallflower

Cheiranthus Allioni

Dazzling orange flowers on stems a foot in height. Glossy attractive foliage. Quite hardy, but should be regarded as a biennial. It literally flowers itself to death. 25 cts. each, \$2.50 per doz.

Trollius · Globe Flower

Handsome buttercup-like flowers on stems 1 to 2 feet high, during May and June, preferring a moist, cool soil, half shade or full sun. Very permanent when established.

Europaeus. Bright yellow.

Orange Globe. Large orange flowers.

35 cts. each, \$3.50 per doz.

Viola

Jersey Gem. The best bedding Viola yet introduced, thriving under ordinary garden conditions and flowering from May until frost. Habit compact and sturdy. The flowers are pure violet, carried on sturdy, 6-inch stems, and very desirable for cutting. A splendid border or rock plant, originated by T. A. Weston, editor and horticultural writer of note. Strong plants, 35 cts. each, \$3.50 per doz.

Veronica · Speedwell

Blue Ridge. A new variety of medium height. Bright blue flowers on handsome spikes. Very desirable for cutting.

Longifolia subsessilis. *Giant Speedwell.* Long, dense, deep blue spikes from July to September. An extra-good garden subject. 35 cts. each, \$3.50 per doz.

Spicata. Compact habit, growing about 1½ feet in height. Attractive spikes of bright blue flowers in June and July. Very free.

Spicata rosea. Form of the above with delicate pink flowers.

Plants offered on this page, 25 cts. each, \$2.50 per doz., \$15 per 100, unless otherwise noted

General List of Hardy Perennials

- ACHILLEA (Yarrow), Boule de Neige.** Splendid for massing and for cutting.
Perry's White. For massing or cutting.
- ALYSSUM saxatile compactum.** Yellow; dwarf.
- ARABIS alpina fl.-pl.** Double Rock Cress. Pure white, double flowers. Dwarf.
- ASCLEPIAS tuberosa.** Butterfly Weed. Orange-scarlet.
- BOLTONIA.** False Chamomile. Showy plants of tall growth, flowering in late summer.
- asteroides.** White.
latisquama. Lavender.
- CERASTIUM tomentosum.** Snow-in-Summer. Silvery foliage; white flowers; dwarf.
- CHELONE Lyonii.** Turtlehead. Rose-purple flowers.
- ECHINOPS Ritro.** Globe Thistle.
- ERYNGIUM amethystinum.** Sea Holly.
- EUPATORIUM (Conoclinium) cœlestinum.** Hardy Ageratum. Light blue flowers from August on.
- FUNKIA subcordata grandiflora.** August Lily. White, lily-shaped, fragrant flowers. 50 cts. each, \$5 per doz.
- media picta.** Showy green-and-white foliage.
cærulea. Light blue flowers.
- GEUM Heldreichi splendens.** Single orange-yellow flowers in May and June. The hardiest of this family. Handsome strawberry-like foliage attractive throughout the season.
- HELENIUM autumnale rubrum.** Sneezewort. Terra-cotta flowers in autumn.
- autumnale superbum.** Golden yellow flowers.
- Riverton Beauty.** Rich lemon-yellow.
- HELIOPSIS scabra zinniæflora.** Orange Sun-flower. Semi-double flowers in late summer.
- HEMEROCALLIS flava.** Yellow Day Lily.
fulva. Tawny Day Lily.
Dr. Regel. Rich orange-yellow; fragrant. May.
Luteola. Golden Day Lily. Golden yellow. June, July.
Thunbergi. Like Flava, but flowers in July.
- IBERIS sempervirens.** Hardy Candytuft. Evergreen foliage; dwarf; white flowers in spring.
- LIATRIS pycnostachya.** Cat-tail Gayfeather. Attractive rosy purple flower-spikes. 4 to 5 feet.
- LYSIMACHIA clethroides.** Loose-Strife. White, recurving flower-spikes.
- MERTENSIA virginica.** Virginia Blue Bells.
- MONARDA didyma, Cambridge Scarlet.** Brilliant crimson-scarlet.
- ENOTHERA missouriensis.** *E. macrocarpa.* Large yellow flowers.
- PACHYSANDRA terminalis.** Japanese Spurge. A valuable ground-cover. 20 cts. each, \$2 per doz., \$15 per 100.
- PENTSTEMON barbatus Torreyi.** Tall spikes of brilliant scarlet flowers.
- PHYSOSTEGIA virginiana.** False Dragonhead. Pink.
virginiana alba. White.
- PLATYCODON grandiflorum.** Japanese Bell-flower. Blue.
grandiflorum album. White.
- SALVIA azurea grandiflora.** Sky-blue flower-spikes, 4 to 6 feet in height, during autumn.
- SAPONARIA ocyoides splendens.** Rosy flowers; trailing habit.
- SCABIOSA caucasica.** Blue Bonnet. Soft lavender-blue. 35 cts. each, \$3.50 per doz.
- japonica.** Clear blue. More hardy than above. 35 cts. each, \$3.50 per doz.
- SEDUM Sieboldii.** Bluish foliage; pink flowers.
- Stahli.** Low-growing; crimson-tinted foliage.
- spurium splendens.** Rosy crimson flowers.
- STATICE latifolia.** Sea Lavender.
- STOKESIA cyanea.** Cornflower Aster. Blue.
cyannea alba. Pure white form.
- TRITOMA Pfitzeri.** Red-Hot-Poker.
- VALERIANA.** Hardy Garden Heliotrope.
- VINCA minor.** Trailing Myrtle. 15 cts. each, \$1.50 per doz., \$15 per 100.
- YUCCA filamentosa.** Adam's Needle. 35 cts. each, \$3.50 per doz.

Campanula Medium. See page 4

Plants offered on this page, 25 cts. each, \$2.50 per doz., \$15 per 100, unless otherwise noted

Garden Roses

Hybrid Perpetuals

These are of the more sturdy type of Roses, and for the average garden are the most desirable. A mulch of manure or leaves should be supplied in late November. From one-half to two-thirds of the wood should be cut away, and the weak branches removed entirely in early spring. Those marked * will flower again in autumn.

Strong, 2-yr. plants, 90 cts. each, \$9 per doz.

***Frau Karl Druschki.** Pure white—the best of its color.

General Jacqueminot. The popular scarlet "Jack Rose."

***Georg Arends.** Rose-pink Frau Karl Druschki.

***Gloire de Chedane Guinoisseau.** Velvety red. New.

Hugh Dickson. Crimson-scarlet.

***Mrs. John Laing.** Soft pink. Extra good.

***Mrs. R. G. Sharman-Crawford.** Rosy pink. Very free.

***Paul Neyron.** Dark rose; enormous size.

Prince Camille de Rohan. Deep crimson.

***Ulrich Brunner.** Cherry-red. Vigorous and free.

Everblooming Hybrid Tea Roses

These are more continuous in flowering and almost as hardy as the preceding kinds. Prune hard in early spring and cut back flower-stems half way during summer as the flowers wither. Protect in winter with soil, leaves, or manure.

Strong, 2-yr. plants, 90 cts. each, \$9 per doz.

Columbia. New. Glowing pink.

Duchess of Wellington. Saffron-yellow.

Etoile de France. Deep crimson.

General MacArthur. Crimson-scarlet.

Gruss an Teplitz. Scarlet-crimson. Very free.

Jonkheer J. L. Mock. Carmine-pink.

Kaiserin Auguste Viktoria. Creamy white.

Killarney. The favorite pink.

Lady Alice Stanley. Deep coral-pink. Very free.

Lady Ursula. Flesh-pink. Very vigorous and free.

Los Angeles. Flame-pink, shaded coral and toning to gold at the base of the petals. Long, nicely pointed buds; flowers large.

Lolita Armour. Deep coral-red, toning coppery red and gold. Large flowers of great substance. Good growing habit.

Mme. Butterfly. Light pink with gold tints.

Mme. Caroline Testout. Satiny pink.

Mme. Edouard Herriot (Daily Mail Rose.) Coral-red. Distinct.

Mrs. Aaron Ward. Indian-yellow, shaded cream. Very free.

Mrs. Charles Bell. Shell-pink. Extra good.

Ophelia. Salmon-rose. A grand Rose.

Panama. White, occasionally shaded pink. Extremely free.

Radiance. One of the best. Carmine-pink.

Red Radiance. A fine cerise-red.

Red-Letter Day. Semi-double; scarlet-crimson. Very free and showy.

Souvenir de Claudio Pernet. Bright sunflower-yellow without shading—entirely distinct from all other yellow Roses, and the most striking variety yet introduced because the color will not fade or sun-scald. Large flowers and attractive glossy foliage. We find this Rose somewhat difficult to handle, but wonderful when right. Strong, 2-yr. plants, \$1.50 each, \$15 per doz.

Souvenir de H. A. Verschuren. Apricot-yellow, shading to saffron-yellow. A strong-growing, free-flowering Rose. \$1.50 each, \$15 per doz.

Souvenir du President Carnot. Light pink.

White Killarney. White.

Climbing Roses

Strong, 2-yr. plants, 75 cts. each, \$7.50 per doz., unless otherwise noted

American Pillar. Rose-pink, distinct white eye.
Christine Wright. Large, double, apple-blossom-pink flowers.

Climbing American Beauty. Large, rosy crimson flowers.

Crimson Rambler. The well-known crimson climber.

Dorothy Perkins. Soft shell-pink.

Dr. W. Van Fleet. Full, double flesh-pink flowers. Extra good.

Excelsa. Crimson-scarlet. Healthy, glossy foliage.

Heart of Gold. Single flowers, 2 to 3 inches across, are dark purplish crimson with white centers, and an abundance of showy golden yellow stamens. They are slightly fragrant and are borne in large clusters. Strong, 2-yr. plants from pots, \$2 each.

Hiawatha. Brilliant carmine, distinct white eye. Single.

Lady Gay. Soft pink.

Mary Wallace. Very large, bright pink flowers, shaded with salmon. Free flowering; very hardy; fine healthy foliage. Better than the Dr. W. Van Fleet rose.

Paul's Scarlet Climber. A new climber of exceptional merit. Vivid scarlet, semi-double flowers.

Purity. Pure white, cupped flowers, similar to, but more hardy than Silver Moon.

Silver Moon. Large silvery white, single flowers.

Tausendschön (Thousand Beauties). Soft pink, turning to carmine.

White Dorothy Perkins. A white duplicate of Dorothy Perkins.

Radiance and Red Radiance Roses

Baby Rambler Roses

Miscellaneous Roses

BABY RAMBLER ROSES, EVERBLOOMING. White, Pink, Red. 75 cts. each, \$7.50 per doz.

MOSS ROSES. White, Pink, Red. 75 cts. each, \$7.50 per doz.

RUGOSA ROSES AND HYBRIDS. **Rugosa** Red and Rugosa White. 60c. each, \$6 per doz.
Blanc Double de Coubert. Fine double white.
Conrad F. Meyer. Silvery pink. \$1 each, \$10 per doz.

Austrian Copper. Large single flowers of bright coppery red, golden yellow reverse, very vivid. 75 cts. each, \$7.50 per doz.

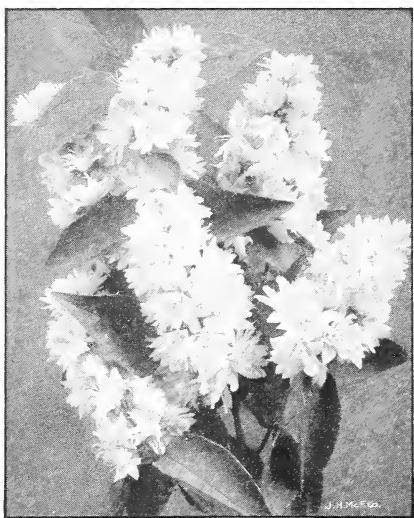

F. J. Grootendorst. A hybrid of *R. rugosa* and Baby Rambler. Strong shrubby grower with ever-blooming Baby Rambler habit. Good crimson color and absolutely hardy. A fine hedge Rose. 2-yr. plants, \$1 each, \$10 per doz.

Persian Yellow. Deep yellow flowers. The old-fashioned early-flowering bush Rose of grandmother's time. 75 cts. each, \$7.50 per doz.

Rosa Hugonis. A very attractive Rose species recently introduced from China, producing dainty, soft yellow, single flowers, in long sprays early in May—the earliest rose to bloom. Shrub-like in growth, it should be planted in the border, not the Rose-garden. Strong plants, \$1.25 ea.; extra-strong plants, \$2 each.

If you like Roses, join the American Rose Society. Send dues and application to us.

Evergreens

The demand for Evergreens for foundation planting is rapidly increasing. Evergreens are attractive winter or summer. Select the kinds adapted for this purpose, prune or shear at intervals, and they may be regarded as permanent.

NOTE.—Varieties preceded with * will develop into large trees, and should not be located near buildings but grouped separately or as specimens where their proper development will not be hampered.

		Each	Doz.				Each	Doz.

Fruit Trees

Many people with limited garden space find it advisable to plant a few fruit trees for shade purposes as well as for fruit. All fruit trees are highly ornamental when in bloom.

Our stock of fruit trees is extensive. They are well-grown, hardened to the New England climate and adapted to either the small home fruit-garden or large commercial plantings.

NOTE.—When Fruit Trees are required in quantities of more than 100, write us for special prices.

Delicious
Apple

NEW APPLE, THE CORTLAND

A valuable new Apple that will appeal both to the amateur and commercial grower. It is the result of a cross between Ben Davis and McIntosh. The fruit has the delicious flavor of the McIntosh as well as the firm, crisp, white flesh. The color is even more attractive—a deep red—and its keeping qualities are superior to McIntosh. All the requirements of a first-class table Apple. Stock very limited. Strong, 1-yr. whips, \$1 each.

Apples

5 to 7 ft. tall, $\frac{1}{2}$ -in. diam. and up, \$1 each,
\$10 per doz., \$60 per 100

NOTE.—Varieties are arranged approximately in the order of ripening.

Concord Grapes

The Bristol Nurseries are located on Pinehurst Road Chippins Hill, two miles west of Bristol, and were formerly known as Paul M. Hubbard & Co. Nurseries. Increasing business necessitated a larger organization, and the business was accordingly incorporated in 1920.

Visitors are always welcome at the Nurseries and may visit without feeling any obligation to purchase. Motorists can best reach the Nurseries by continuing from the Boulevard through School and West Streets, to Terryville Avenue, turn left and follow the Bristol Nurseries' road-signs. We suggest, as far as possible, that intending purchasers come and personally select plants desired.

Landscape Gardening. In addition to growing and dealing in all kinds of plants, we are well equipped to make ornamental plantings, and will gladly prepare plans and estimates or furnish advice relative to residence plantings, the laying out of old-fashioned hardy gardens, rose-gardens, or the complete development of an estate.

Terms and Suggestions for Ordering. Please order as early as possible on receipt of this price-list. The planting season is all too short, and early ordering will enable us to make early delivery just as soon as planting conditions are right. Remittance may be made by postal money order, check, or registered mail.

Express Shipments. On all shipments by express, we guarantee safe arrival to points within the United States. If a shipment fails to arrive, or is received from the Express Company in damaged condition, notify the agent, or sign for the goods as being received in damaged condition. We will promptly replace the shipment when informed.

Express Shipments and Truck Delivery. We cannot assume responsibilities for express shipments, and goods travel at purchaser's risk after being received by the forwarding company. We will, however, give careful attention to the selection and packing of orders for shipment. Express shipments go forward at the purchaser's expense. **Parcel Post.** Small shipments east of the Mississippi will require approximately an additional 10 per cent to amount of order. **Local Orders** will be delivered by truck without charge and long-distance truck delivery can be arranged at a reasonable charge.

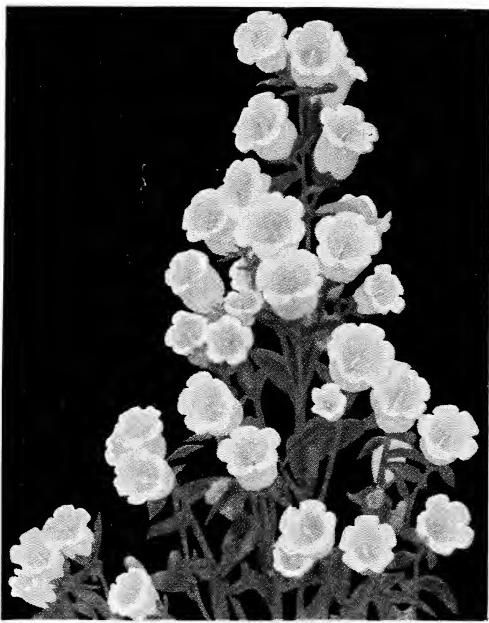

Please Note. We take every possible care to select only strong, healthy, true-to-name plants. The subsequent behavior will be dependent on their care and on conditions not within our control, and for that reason **we give no guaranty** as to results. Plants proving untrue to name will be replaced without charge. Customers unwilling to accept shipments on these conditions should return goods promptly.
